ABOUT ME

Hey My Name Is Mohit Pratap Singh I am a Web Developer (Fresher). I have learned Web development technologies from Geekster , Youtube and Multiple Platforms and I have Done Many Projects in these respective technologies.

PROJECTS

Tours And Travels

This is my First project in my College .Tours and travel Management System is based on a concept of maintaining tour packages for the tourists. Before stepping into the main system a user has to pass through login system to get access, This project is developed in C Language and different variables ,for writing the source code of the project I am using Codeblocks .

AV Downloader

AV Downloader is a Audio Video Downloader Project in this project you can download any kind of video or audio only you need to copy their link and paste in on the URL box after this click on download and your video or audio is downloaded Extra feature is you can also select Quality of video. I am Using Python and it's libraries.

YouTube Clone

Let's talk about YouTube clone with the help of HTML CSS and JS I made a clone Which is responsive and working I am adding 2 to 3 pages more no other library is used . I am also used YouTube API to fetch real data from YouTube.

Farmer's Buddy

Farmer's Buddy is a website in which we are providing the data about soil , seasons , crops and ingredients beneficial for their crops. The data is present in a tabulated form So , Farmers can easily read
